

FUKSI GUIDE 2023

PROSESSITEKKARIT RY

HEIMO! NEW FUKSI!

Congratulations for getting into Aalto University and welcome to the world of the Association of Process Engineering Students. You are reading the first words of a brand new Fuksi Guide 2023! This booklet contains important information of the future and the past and all things exciting, so read it carefully! The amount of new information is huge and you might sometimes feel overwhelmed. Don't worry, it is good to put this booklet down and enjoy the beautiful summer days! You can always send a message to your Fuksi Captains if you have any questions!

But now... let's rock!

Prosessiteekkarit ry Fuksi Guide 2023

Kick-start invitation?!	67

Hello! My name is Juho and I'm starting my third year of studies in Aalto, majoring in chemical engineering and processes. I'm originally from Oulu, but I quickly found my new home in our beloved Otaniemi. In addition to association work and going to school, I like to cook and do random stuff with my friends. It's nice to get to know you, I hope you enjoy it here!

Hi!! I'm Melissa, you can also call me Mellu! Upcoming fall, I'm starting third year, majoring in bioproducts. A way back, I moved here from the Athens of Finland, from Jyväskylä! I enjoy living in Otaniemi, because there is nature everywhere. During free-time, I like to go out for walks and just vibe whenever and wherever! Super amazing to be able to get to know you! Let's make a great year together!<3

Dear fuksi!

Here it begins...

Huge congrats on receiving a new study place from Aalto University and welcome to study chemical engineering! Your adventure in a new and unique community is about to start. Super cool to have you here with us!

We are Juho and Melissa, nicely shortened to JuhLis! We are the **Fuksi Captains** of the **Association of Process Engineering Students** or **Prosessiteekkarit (PT)** in Finnish. We have the greatest joy and honour to help you get familiar with teekkari culture and the university life! We will make sure that all the fuksis aka first year students, studying chemical engineering will get a chance to get to know Otaniemi, Aalto University and the best part, other students. To help us, we have plenty of people who are so eager to meet you. These people are our ISO Officer Joonatan and the ISOs (aka tutors) who are gathered by the ISO Officer!

Fall begins with Kick-start. Here you get to meet your fuksi friends for the first time.

One week from Kick-start is when we really start the whole process with Orientation Week. Rest in advance, because during Orientation Week and during your first fall so many fun things are going to happen. Fuksi year is a one of a kind experience so we encourage you to take the most out of it. Your own well-being is the most important thing to us, so it is also important to remember not to drain yourself too much!

The events during the fuksi year are a brilliant way to get to know students from PT as well as from other Guilds in Otaniemi. There is a great variety of events in PT and Otaniemi: There will be parties, sports events and playful games between guilds and associations!

We are excited just to think about all the things we are about to experience together during the upcoming year. Let's be open-minded and brave, it will be great!

With love,

Melissa and Juho

To Do!

Check out these pages carefully before Orientation Week! Here you can find all the important info and some upcoming events of the fall!

Summer checklist:

- Enroll as present at the university
- Join the AYY and pay the membership! (save your receipt!)
- Get a student card (frank.fi)
- Pay the FSHS fee (kela.fi)
- Apply for the student grant and housing grant
- Apply for housing (AYY or HOAS)
- Activate your Aalto-ID
- Familiarise yourself with your Aalto e-mail and follow it actively
- Download Telegram!
- Join the Chem Eng Fuksis 23' Telegram group and the Captains' Channel
- Sign up for Kick-start (see last page)
- Prepare mentally and enjoy your summer!
- Read this booklet carefully!

You've Got Mail!!

It's good to learn to actively follow your new Aalto e-mail, because you'll receive messages from courses, the university as well as weekly newsletters from PT and Aalto student Union (AYY).

Our weekly newsletter, Captains' Weekly, which is very important regarding to your fuksi year will also be sent to your Aalto-mail every Sunday. So make a routine of checking your e-mail at least once a week!

Communication

Welcome to Telegram!

Communication outside the school happens in an app called Telegram! Take a close look at it before the school starts so you won't miss any important information. Join immediately to the most important groups (Chem Eng fuksi chat, Captains' info Channel and PT fuksi chat) from the QR-codes below:

Chem Eng
Fuksis'23

Captains'
Channel '23

PT
Fuksis '23

You can chat freely in the fuksi chats with other fuksis, ISOs, members of the board and with us! We inform about essential things in these groups so follow them actively!

For Telegram (TG), you get to create your very own TG-username, aka TG-nick but we would hope you to add you **first name** and **last name** and **a picture of yourself** to your profile! This way us and your fellow fuksis get familiar with your name and face already during the summer! :)

Save The Date!

Fuksi year is hectic but there are so many fun things to do! Here we have listed upcoming events that you can already add to your calendar! Exciting!!

20.8. Kick-Start!

Take a head start into the fuksi year by getting to know us, your ISOs, and your fellow students already before Orientation Week!

28.8. Process Initiation!

Getting to know the campus, Teekkari life and other students. Prepare to be busy for the whole day until the late night!

29.8. FK x PT BIG things coming

Getting to know the other ISOs together with the Guild of Physics!

30.8. OtaOrienteering

A playful introduction to the other guilds and associations of Otaniemi in the form of a checkpoint crawl!

31.8. FuksiPicnic

Taking it easy and enjoying the last warm days of summer together with the CHEM guilds.

1.9. PT's Kaukkarit

PT's own Kaukkarit aka Season Openers! Let's get the year started together with process engineering students!

5.9. Aalto Party & Afterparty

An outdoor festival organised by Aalto and Aava for all of Otaniemi! Which artist will find their way here...?

7.9. CityOrienteering

A checkpoint crawl exploring Helsinki!

Orientation Week will give you additional information about your programme and about Aalto University as an academic environment and student life on campus. It gives you a chance to get to know your fellow students and the staff of the programme. It's full of day-long activities and it's good to reserve the whole week off from anything else if possible!

Let us know if you can't make it to Orientation Week at all!

8.9. GrilliChilli

Very relaxed chilling and grilling at pHuone!

28.9. PT's Fuksi sitsit

The first sitsit organised solely for PT's fuksis!

30.9. Otatarha Grand Prix & Lakinlaskijaiset

A Grand Prix right here in Otaniemi, after which we put the teekkari caps into hibernation until spring!

4.10. CHEM Sitsit

Sitsit together with the CHEM guilds.

5.10. Lettucup

Battling for glory against the Guild of Civil Engineers (IK) and the Guild of Surveying Engineers (MK). Sauna and pancakes are served after the games!

12.10. CHEM appro

A playful pub crawl-ish event introducing the CHEM guilds and Otaniemi!

20.10. Prosess Optimization

A crucial part in becoming a true Prosessiteekkari.

22.10. English Bachelor Sitsit

Sitsit for all the English bachelor students, organised entirely in English!

26.10. Aalto Amazing Race

Adventure around Helsinki and Espoo for all fuksis in Aalto, held by Aava!

27.10. Nightmare in Teekkari Village

All kinds of spooky things happen in Otaniemi, especially near All Hallows' Eve, especially when the ISOs of PT and Inkubio are up to something...

26.-28.11. Tii, dii, dii, didididi, didididi...

3.12. PikkujouluT

PT's very own Pre-Xmas party! There will be Glühwein, ginger bread and playing together!

15.12. Family and Friends Sitsit

So that you don't forget about your friends and family as you start having fun in university, invite them with you for a sitsit!

Fuksi Major's greetings

Greetings new student of technology, dear fuksi,

Congratulations on your admission to Aalto University! You have completed the application process with distinction, and now it's time to turn your thoughts onto the start of your fuksi year this coming autumn. I wish you a warm welcome to Otaniemi and our wonderful Aalto and teekkari (technology student) community.

My name is Ramzi El Geneidy, and I am your Fuksi Major. My task, together with the Fuksi Captains and tutors, is to make your first academic year unique and unforgettable. I work as a volunteer under the Aalto University Student Union, and I lead the Fuksi Committee, commonly known as FTMK, which consists of all of the Fuksi Captains from guilds and student associations in the the field of technology that admit new fuksis.

Aalto University was founded in 2010, and along with that, students of arts and business have also found their way to Otaniemi. The multidisciplinary university and the Aalto community enable extremely rich and active student and recreational activities to complement your studies. Everyone is sure to find some activity that interests them with a like-minded group!

Although Aalto University is a relatively young university, there have been us teekkaris for a century and a half. Teekkaris have been in Otaniemi since 1966, before which the school was situated in Helsinki. The most treasured distinction of teekkarius, the teekkari cap, has been in our use since already 1893. I hope you keep the long history in mind as you explore the wonderful world of teekkarius. During the decades a lot of traditions have been born, but likewise the culture has developed immensely. Indeed teekkarius evolves constantly – and comprises everything fun and silly us teekkaris ever decide to do!

The teekkari community, into which you are warmly welcome, is unique in many ways. Teekkarius promotes a sense of community and tolerance: teekkaris accept everyone just the way they are and don't leave anyone behind. The tasseled community aims to evoke cheer and joy both within itself and those around it, and outside Otaniemi, teekkaris are known among other things for their jäynäs (pranks), tempaus (good deeds) and teekkari songs. Teekkaris are also characterized by their enthusiasm and will to get things done, which can be seen especially in different projects where working together, having fun and open-mindedness meet. I wish to encourage you, dear fuksi, to make teekkari activities just the way you like them. Otaniemi is a great place to try all kinds of new and wonderful things!

Fuksi upbringing also has long traditions in Otaniemi. The task for me and above all your

Fuksi Captains are here to help you get started with student life, as well as to guide you through the entire first school year. During your fuksi year, you'll get to collect fuksi points from various events and activities in order to earn your very own teekkari cap. The fuksi points will introduce you to the teekkari culture and its traditions, other students, as well as all else Otaniemi has to offer, not to mention all the fun memories you'll get! Your fuksi year will culminate in the largest and most revered event for us teekkaris, Wappu, if I decide to organize one for you.

“Teekkari promotes a sense of community and tolerance: teekkaris accept everyone just the way they are and don't leave anyone behind.”

My most important piece of advice to you, future Teekkari, is that I encourage you to throw yourself into activities with all your heart and a gleam in your eye. You will certainly make new friends with whom you'll spend the next few years. So get to know your classmates, tutors, Fuksi Captains and other residents of

Otaniemi, since besides studies, doing fun stuff and making new memories together with others is the best thing that your study time at our university can offer you. Your guild or student association, us in the Fuksi Committee and countless others create the framework for activities and organize events to the best of our ability, but after all, you will get to decide for yourself what kind of fuksi year you want to make yours. A unique year awaits you, so I recommend you make the most of it!

I am in the privileged position of getting to watch you and your fuksi comrades on your journey to becoming teekkaris. Feel free to come and chat with me anytime, I hope to get to know you too.

I wish you a truly memorable fuksi year! <3

Ramzi El Geneidy

Ramzi El Geneidy
Fuksi Major

FTMK or the Fuksi Committee brings together all Fuksi Captains from associations taking in new students of engineering. The Fuksi Committee is led by the Fuksi Major, Ramzi.

Phuxivatorns hälsning

Stora gratulationer till din studieplats, och välkommen till Aalto-universitetet! Du har gjort ett ypperligt val och nu väntar ett fantastiskt phuxår. Studietiden är en unik tid i ditt liv och jag hoppas du tar ut allt du kan av den.

Jag är Rafaela von Frenckell, Phuxivator på Teknologföreningen, TF, i år. Min viktigaste uppgift under det kommande året är att ta hand om TF:s phuxar.

Teknologföreningen är den **svenskspråkiga nationen** vid Aalto-universitetet. Våra medlemmar är inte bara de som har svenska som modersmål eller talar det flytande, utan alla som är intresserade av det svenska språket, oberoende skola eller studieinriktning. Du behöver alltså inte kunna svenska för att bli medlem, utan bara vara ivrig att komma med i vår svenskspråkiga gemenskap. TF är till för alla, **“ruotsinkielisille ja ruotsinmielisille”!** Ta alltså tillfället i akt under de första dagarna vid Aalto att skriva in dig. Det kommer att ordnas en välkomstrundvandring på TF:s nationshus Urdsgjallar för ditt gille under introveckan. Ifall du är nyfiken på vad allt vi gör på Teknologföreningen är det bara att ta kontakt med mig eller komma på besök till Urds!

Kom ihåg att ha det roligt och vila upp dig under sommaren, hösten närmar sig med stormsteg och bär med sig otroliga upplevelser. Phuxåret är ett av de mest minnesvärda åren av studietiden! För en liten försmak rekommenderar jag att du deltar både på gillet och på TF:s startskott redan under sommaren. Då skolåret kommer igång kommer det redan från början att hända mycket och jag hoppas att du modigt deltar på så mycket du orkar och hinner, både på gillet och på TF:s evenemang. På så vis får du lära känna de andra phuxarna samt äldre studerande.

If you are interested in TF's activities, there is a possibility to get to know more about the student nation and its members during Orientation Week!

Dessutom ska du också samla phuxpoäng under året, de som samlat tillräckligt får sedan teknologmössan till Wappen (om den ordnas)!

Jag vet att Melissa och Juho kommer ta väl hand om dig, men jag finns också alltid här för dig. Läs igenom hela denna blaska, den innehåller mycket information som kommer bra till hands när hösten väl kommer. Njut av sommaren, så ses vi på hösten!

Kram,

A handwritten signature in black ink that reads 'Rafaela von Frenckell'.

Rafaela von Frenckell

Congratulations Fuksi!

Hello and welcome to your new studies also from Academic Engineers and Architects in Finland, TEK! We are the trade union for all academic engineers and architects, providing benefits and services to support our members, and lobbying for conditions that allow them to succeed.

As the TEK Student Liaisons, we represent TEK on the Otaniemi campus. Our job is to keep you connected to TEK, and to help make sure your student years are as amazing as possible, no matter your background.

Find out more about what we do at tek.fi/en, or join using the QR code link! TEK membership is free for students!

See you soon on campus!

TEK
Powering your career

Greetings from Aalto University Student Union!

Welcome to Aalto University and its student union, AYY! Here at the Student Union we aim to ensure that you can truly experience the best student's life in the world here at Aalto. Our wish is that every student feels good and safe in our student community, and that every one of us receives all the help and support they need for the entire duration of their studies.

You are stepping into a world of endless opportunities. We urge you to be curious, try new things, to learn and most of all to enjoy your time at Aalto. Don't be afraid even though finding your own passion and place in the world might seem like a big task and never fear mistakes. We are here to support you with all of your problems.

See you around!

Mantè Žygelytė

Board Member (New Students, Internationality and Equality)

What is AYY?

As a student of Aalto, Aalto University Student Union, AYY, is your student union. AYY brings together about 17,000 students of arts, design, business and technology. We work to ensure the well-being of all our members and we want to develop teaching at Aalto and the best student life in the world.

As a member of AYY, you are entitled to numerous student union services and student benefits both locally and throughout Finland. AYY offers several services for its members, such as affordable student housing, rental facilities, and advocacy. As a student of Aalto, you can also participate in activities and events organised by AYY and over 200 associations within the Student Union.

AYY in Figures

- Around 17,000 members
- Approximately 200 organisations and associations
- Approximately 2,700 student apartments
- Nearly 50 employees
- 10 full-time board members
- Approximately 500 volunteers

Communication Channels

You can find comprehensive information about all AYY's services and opportunities at ayy.fi. We compile all current information concerning students in the weekly newsletter published by email on Mondays.

PROSESSI

TEKKARIT

From Chair of the Board

Hey fuksi!

Congratulations for being accepted to Aalto University, School of Chemical Engineering! You are about to enter a new, exciting era of your life, that will be full of new experiences and opportunities. The first year of new studies is unforgettable, and I recommend you to enjoy it to the fullest by actively joining the student activities right from the start of the first semester. Luckily, you won't be facing these new adventures alone, since we, Prosessiteekkarit, will be by your side and support you from the very start.

What is Prosessiteekkarit?

Association of Process Engineering Students, or Prosessiteekkarit in Finnish and PT for short, is a student association in Aalto University, School of Chemical engineering. PT was founded in 2012 as a result of a bachelor's program reform, when three different fields were combined into one big study programme. PT receives over 200 new students each year, and these new fuksis consist of students in both Finnish and English bachelor's programmes in Chemical Engineering. Altogether, PT has over 800 members already.

PT is run completely by volunteering students. An 11-membered board coordinates the association, and over 100 officials help to execute the activities. PT, which operates under the Aalto University Student Union (AYY), organizes lots of different activities for its members, and thanks to our many volunteers, we have a versatile and plentiful selection of events. It is possible to join the group of volunteers already during your fuksi year, and there are different tasks of varying scope available. Annually, PT arranges multiple different events, for example sitsit, sauna evenings, parties, sports, and culture and wellbeing events. In addition, the association promotes the interests of its members and offers chances to get to know the companies of the field, in the form of company evenings, mill tours and case-solving events.

"Your journey is about to begin, and you can choose what your path to teekkarius will be like."

In addition to events and promotion of interests, PT keeps up an association room, pHuone, that is located at the School of Chemical Engineering, at Kemistintie 1 D 2. All members are welcome to enjoy free

pHuone is located at Kemistintie 1 D2! You are always welcomed here so come hang around and have a cup of coffee!

coffee and tea, play games, do school work or just hang out with friends while also getting to know other members! While a member of the board is present, you can also buy for example overall patches, songbooks, stickers and reflectors.

Your journey is about to begin, and you can choose what your path to teekkarius will be like. My advice is to have an open mind for the upcoming adventures, get to know people and throw yourself to teekkari culture! I encourage you to be yourself, search for fun and meaningful things in our association's activities and also give suggestions, if you come up with new ideas or think something is missing. We are here for you, so don't hesitate to contact me or your Fuksi Captains already during the summer, should you have any questions.

I warmly welcome you to be a part of the community of Prosessiteekkarit, I'll see you in August!

Prosessiteekkarit as numbers

- 2012 Founding year of PT
- 800+ Members
- 235 New fuksis in fall 2023
- 115 Hardworking volunteers

Eveliina Palo
Chair of the Board
Prosessiteekkarit ry
eveliina.palo@aalto.fi
TG: @evepalo

At pHuone you can study, play games with friends or just chill on the couch with good company!

Your Board

Prosessiteekkarit is run by annually selected board chosen by the association. There are many different roles in the board, each of which directs its own committee. The most important tasks of the board are to take care of the members' well-being, to represent the association at various events and annual balls and to maintain and promote new and old traditions. In addition, the board organizes events and makes sure that it is safe and comfortable to be in our community. The board members are chill crew who are happy to help you so don't hesitate to tap them on the shoulder for help!

Chair of the Board

Hi all! My name is Eveliina, I'm Nth year student and this year's Chair of the Board of PT! As Chair of the Board, I'm responsible for example of leading and improving the activities of the board and the association, leading board and association meetings and keeping contact with the school and other student organizations together with Head of Studies and Head of Internal and External Affairs. In addition, I'm also taking care of the wellbeing of the board members. On my free time I like to go on long walks and knit. Looking forward to seeing you all in the fall!

Head of Internal

Hellohello! I'm Ilmari, and I'm soon studying for the fourth year, majoring in chemical and process engineering. This year, I'm Head of Internal and External affairs, and in addition to that, I'm also the Vice Chair of PT. My tasks in the board involve a lot of action with my committee's officials, who enable a wide variety of activities from wellbeing and sports, all the way to equality-related affairs. Furthermore, I'm responsible for guild/association relations inside and outside Otaniemi. Congratulations for an excellent choice for your field of studies, see you in autumn!

and External Affairs

Heyy! I'm Anna and I'm Spokesperson-Secretary in this year's board. I'm a fourth-year student here at Aalto and just starting my master's studies. Along with being a secretary and sending weekly infoletters, together with the officials in the information committee I'm responsible for the association's social media, web site, visual look and magazine ProTeesi! In my free time I like to be outdoors, in choir practices and whenever wherever. Congrats for getting into Aalto and see you in autumn!

Spokesperson-

and secretary

Treasurer

Hello! I'm Nora, a fourth year student starting my Master's degree this autumn. I'm this year's Treasurer, which means that I'm in charge of preparing and paying invoices and making sure that our activities stay within budget. I'm also responsible for maintaining our membership register and the association's accounts. In my freetime, I like to be outdoors, read and spend time with friends and family. I wish you the best of luck in starting your studies, and see you at pHuone!

Head of Study Affairs

Hello! My name is Leevi, I'm a third year student majoring in chemistry and material science. This year I'm Head of Study Affairs of PT. This means that my job is to guard your rights and interests as a student. In addition to this I also organize study-related events and I'm responsible for the association's student marketing. In my free time I like to play guitar, video games or read books. Congratulations and see you soon!

Head of Corporate relations

Hello there! I'm Niilo and I'm starting my third-year studies. My major is chemical engineering and processes. This year I'm working as Head of Corporate Relations in PT's board. My tasks include eg. signing sponsorship contracts with companies, arranging excursions and maybe most importantly acquiring the overalls for all fuksis. During my free time, I like to play floorball, read books and cook all kinds of dishes. Huge congratulations for the degree place! See you in autumn in Otaniemi!

Head of International and Masters Affairs

Hellow! I'm Naomi, PT's Head of International and Master's Affairs for 2023. I do somewhat similar stuff that your Fuksi Captains do, but my fuksis are all of the masters' students and exchange students that come to CHEM. I also try to make sure all of the international students of CHEM, be it bachelor level or masters level, are taken care of. In my spare time I like to move and create music. I enjoy all sorts of handicrafts too! Arrive with an open mind! Everyone is excitedly waiting for you!)

Hostess

HeyHello! I'm Nalle, fuksi -21 and PT:s Hostess for 2023, which means that I'm in charge with our events together with Efu! So you can find me in the kitchen, behind the bar or just buzzing around just about anywhere. During my free time I enjoy reading and jogging, and naturally watch way too much TikTok. I'm already crazy excited for the fall, and I hope you'll have just as much fun as I've had!

Host

Howdy to everyone reading this text! I'm Efu, third-year student and PT's Host of '23. Together with Nalle and other members of the event committee, we organize many kinds of events for our lovely members of PT. In my spare time you might catch me at gym or from bottom of my bed watching Netflix. Very big congratulations and I'm looking forward to organize events for you in the fall !!!

Fuksi Captain

We Fuksi Captains are also part of the board and of course promote the cause of fuksis! We take care of proper fuksi upbringing, that is, we organize fuksi events and teach you the cornerstones of teekkari culture both in our association and around the Aalto community!

Fuksi Captain

Essentially, we are responsible for everything fuksi-related! We take care of both, the Finnish bachelor's programme and the English bachelor's programme (Chem Eng) fuksis! With our help, we have a small committee called...

THE PT FUKSI COMMITTEE

ISO Officer

Fuksi Captain

Fuksi Captain

The BIG text from ISO Officer!

Hello there and an ISO congratulation for getting a study place at Aalto!

I'm Joonatan, and I'm 21 years old from Helsinki, although I live in Espoo now. In the autumn I will start my third year of studies here in the cradle of technology, and I hope that I will be able to complete my bachelors degree in the following year. My major is the best one of the three available - chemical engineering and processes. Among friends, the major also goes by the name "prose" or "KeLa".

Within our great association I have received the honour to be ISO Officer. ISO Officer's job is to select your supporting ISOs, or tutors, and maintain their activities and well-being throughout the academic year.

"Don't be afraid to get to know your ISOs better, as they can easily become very close friends during the year!"

For you, I have selected 110 ISOs who will be your closest pillars of support during your first weeks. Of these 110, 20 are Chem Eng ISOs, who will specifically look after the English bachelor degree fuksis. ISOs will guide and help you to get to know this great student culture. Don't be afraid to get

to know your ISOs better, as they can easily become very close friends during the year! Regardless of the time or issue, the ISOs are there for you!

On the first day of Orientation Week, you will be divided into groups of ten which consist of five ISOs and one ISOISO (your ISO's own support person). During Orientation Week you will be guided around Otaniemi by the ISOs and later in the term they will organise all sorts of activities for you.

Welcome and see you during orientation week!

Joonatan Kaskimies
ISO Officer '23

Greetings from Head of International and Master's Affairs

I hope the sun is shining on a sweet summer day as you are reading through this guide and big congratulations on receiving a place in Aalto University.

My name is Naomi and I am Head of International and Masters' Affairs of PT this year. My duties as a board member include familiarizing new incoming masters' and exchange students to Aalto and CHEM and helping them in getting to know teekkari culture (student culture) and Finnish culture. Every year Aalto receives more international students. We want to make sure international students get the same kind of warm welcome to Aalto and opportunity to become a part of the Aalto community as incoming Finnish students do! International students can also be found in the Chemical Engineering Bachelors of Science programme (Chem Eng for short). They (you) will be getting the same fuksi upbringing as national side starting bachelor students and are going to be a part of the upcoming fuksi events, such as orientation week! On top of my other board member duties, I aim to make sure that international students are taken into consideration in everything that PT does!

I work together with many amazing people and without them I would not be able to do what I do. In matters concerning masters' and exchange students, working together with the guilds of CHEM is important. The international and masters' representatives of the guilds and I form a tight team of four! International tutors recruited by us and all of the board members and officials of the KK, VK, PJK, and PT are a vital part of our work as well! The CHEM international Officers also works together with the international representatives of other Aalto

guilds and student associations. International events ranging from larger sitsit and parties to smaller casual hangouts are organized by us and the people we work with. I am also involved in organizing PT's own international events together with the Chem Eng Officer and Activity Coordinator officials. I highly recommend joining our fun events!

Communicating in the English language is a scary thing for a lot of people as more often than not English is not our first or even second language. Take no stress though! Mistakes happen all of the time while speaking (at least to me :D). The most important part is the effort made to communicate! As an Aalto student you have an amazing opportunity to expand your worldview in a multicultural environment that Aalto is! Good luck for your studies and hopefully I see you lots in the upcoming year!

With joy, love, and chocolate

Naomi Kaura
Head of International and
Master's affairs

Your ISOs

ISOs will be your companions, support and security net for the entirety of your fuksi year. One of these ISO-groups will be your very own and you get to spend time with them starting from the Orientation Week! PT's ISOs will organize multitude of events for you in collaboration during the fall and spring. All other ISOs, not just your own, will get familiar to you as well!

Back when I was a fuksi...

These pages contain the memories of two “tupsu” fuksis. In other words, two students who put a teekkari cap on their head for the first time this Wappu! A year ago, they were in exactly the same place as you are now!

Dear Fuksi...

Congratulations on being accepted to Aalto University! Your first year is going to be an amazing and memorable time in your life. Starting with limitless possibilities on what the future holds. With the number of amazing people you are soon to meet, the many adventures you'll venture on with your friends, and Fuksi parties, you'll definitely have an amazing time, just like I did.

If I could give you one thing to start off your first year, it would be to be the first to reach out to other people. Start off by breaking the ice a bit or asking a simple question. I can't tell you how many great people I was able to meet by simply complimenting their hoodie

or offering a piece of chocolate :) Don't be shy or scared, but instead, feel excited about the possibilities of what a new friendship could bring to your life.

For you Finnish students: enjoy your first year filled with ups and downs. Just remember, that after all you will be going through, the best day of your year is awaiting when you'll finally be an Official Teekkari!

”Don't be shy or scared, but instead, feel excited about the possibilities of what a new friendship could bring to your life”

For you international students: don't worry! I was once as worried and as confused as you are. Moving to a new country is definitely not easy and will at times be very emotional leaving your family and friends back home. Remember that everything will be okay :)

One tip from your future tutor : Enjoy the Process. I was so caught up with meeting new people and going to events my first couple of weeks that I didn't even realize that time went by so quickly and I didn't even have time to appreciate all the things I went through. Take it Easy, one step at a time, and just like that, a whole year will have passed and you'll be wearing your Teekkari Cap with your beloved friends.

Have an amazing first year and I can't wait to meet you!

Adrian Alfatoni
Fuksi '22 and ISO '23

Hello fuksi '23!

I'm Alisa, your future ISO a.k.a. your future tutor. First, congratulations for choosing the best line of study and deciding to join us for the amazing year ahead of us. When I started my studies in Aalto last autumn, I was quite anxious. I didn't know anyone from CHEM and I didn't understand reaction mechanism arrows.

My year started with Kick-start where I got to meet up with my fellow fuksis '22 and got to know our ISO's. For me Kick-start was a great way to neutralize the stress of not knowing anyone. I realized that I had stressed for no reasons, because I was among the most welcoming and warm people ever, called prosessiteekkarit.

Now, a year later I have met so many new people, though I still can't understand reaction mechanism arrows. There was a lengthy process during my fuksi year, growing up from a small confused fuksi to a full-grown teekkari. During next year you will get to hop into our shoes and experience an astonishing year filled with hustle. Fuksi year will bring all kinds of fun activities and opportunities. My year consisted of making new memories, running around in all kinds of events, and the rest of the time passed lying on my bed and resting or studying. It is truly a good idea to rest during the summer, so you have energy to enjoy the fuksi year as much as possible.

One of the best moments of my fuksi year were Aalto Amazing Race, sisis and of course Wappu, the moment when I was allowed to place the teekkari cap on my head for the first time.

Alisa Jämsä
Fuksi '22 and ISO '23

In the beginning of my fuksi year I was as lost as good weather on Wappu. I can tell you that luckily so are most of the fuksis. Our ISOs are here for you for this very reason. If you have any questions, please ask your ISOs. Believe it, or not, we might actually have sometimes better answers than Jodel. It is important to remember that everyone's fuksi year is different, but I'm sure that there is something to do for everyone as long as you have an open mind.

"Fuksi year will bring all kinds of fun activities and opportunities."

My summer goes by at Lohja making paper and trying to understand the processes behind it. A new memorable year awaits for us in autumn and I cannot wait to meet you and guide you through the process of becoming teekkaris<3

I'm so happy that you are becoming a part of our happy group and we'll see you in the fall!

Alisa Jämsä
Fuksi '22 and ISO '23

CanCan

CanCan is the oldest and the most glorious dance crew in Otaniemi: It is ran by PT fuksis! Come along!

Hello dear fuksi and possible future CanCan dancer!

We warmly welcome you to Aalto University's most magnificent dance group CanCan! It's PT fuksis' very own dance group. Yes, you read right! You can only join CanCan as a fuksi, so this is an opportunity you shouldn't miss! You can't avoid making new friends during shared experiences.

In the midst of flowy skirts the most important thing is our team spirit and having fun while dancing. Participating in CanCan doesn't require any kind of previous experience with dance. During our fuksi year CanCan has performed with different assemblies varying from five dancers to dozens of them. You don't have to take part in every rehearsal or performance to be a part of this group. You can participate just as much as you want or are able to.

"You can participate just as much as you want or are able to"

The best thing about our gigs is by far the crowd <3 When people are yelling "När börjar CanCan" and "Omstart" it is always a pleasure to perform. CanCan has been one of our fuksi year's highlights, so we encourage you to join with open arms!

Have a lovely summer and hopefully we see you soon!

With love,

Ilina and Kaisla

CanCan responsables '22

Greetings from the Sports Responsibles

It's good to refresh your mind and body with exercise alongside your studies!

Yeehaw... Congrats on the acceptance!

We are the 2023 Sports Responsibles, Bogdan, Botond and Enni.

You might feel that there will be a lot to adjust to. Your freshman year will be filled with studies and you surely won't get bored with exciting events that Aalto offers. On top of this busy schedule, we offer you opportunities to exercise, keep your body fit and mind sharp. We organize sports-related events for the members of PT, such as sports check-

point crawls, well-being and outdoor events. These events are a nice cause to spend time with friends and meet new people.

We organize weekly sports sessions together with The Guild of Electrical Engineers and Computer Science Guild, where we play various ball games!

”These events are a nice cause to spend time with friends and meet new people.”

We also hold regular ball games, where our team CHEMeleons competes against the other guilds for Floorball and Basketball cups. The atmosphere there is relaxed and supportive and one does not need to be a pro to take part! Just bring a positive attitude to the table and have fun!

All fuksis and older students are welcome to the activities. This way you can get to know older students as well!

Get the most out of this summer, and we'll see you in the fall.

Enni, Bogdan and Botond
Sports responsibles '23

No brain, no gain

*Versatile training for
affordable student price*

With UniSport training
card you have access to:

- 5 good quality gyms
- over 200 weekly group
training classes
- relaxed ball sport groups
- Online classes and videos

First visit is free,
welcome!

Study Corner

This section about studies is intended for students starting in 2023. It will introduce you to the most important information systems, schedules and support services related to starting your studies and studying at Aalto University in general.

What is my bachelor's programme?

The Chemical Engineering, Computational Engineering, Data Science, Digital Systems and Design and Quantum Technology majors are all part of Aalto University's English-medium Aalto Bachelor's Programme in Science and Technology, jointly organised by all four Aalto schools of technology. The Chemical Engineering major is run by the School of Chemical Engineering, Computational Engineering by the School of Engineering, Data Science major by the School of Science, Digital Systems and Design by the School of Electrical Engineering and finally, the Quantum Technology major is run jointly by the schools of Science and Electrical Engineering.

The contents of your studies depend on the major that you originally applied for and gained admission to. Students in all majors are required to complete a 65-credit core curriculum, referred to as basic studies, which focuses on mathematical and computational methods and provides students with a solid foundation in information technology skills. The degree programme also includes 65 credits of studies towards the major, 20–25 credits of studies towards the minor and 25–30 credits for electives. Once you have completed all these elements, you will be awarded a Bachelor of Science (Technology) degree worth 180 credits.

Orientation week

Your studies will begin with an orientation week, running from Monday 28 August to Friday 1 September 2023. Orientation week will give you additional information about your programme, Aalto University as an academic environment and student life on campus. Orientation week gives you a chance to get to know your new fellow students and the staff of the programme. You will be assigned to a tutoring group to help you get off to a good start with your studies. The orientation week schedule will be published at the latest in August on Starting your studies website where you can also find other helpful information concerning the start of your studies:

<https://www.aalto.fi/en/programmes/aalto-bachelors-programme-in-science-and-technology/starting-your-studies>

Timetables of the academic year

The first courses will start on Monday, 4 September 2023. Teaching in the academic year 2023-2024 is divided into five seven-week periods. The final week of each period is an evaluation week reserved for the finalisation of coursework, presentation of course results and evaluation of student performance with various methods. Classes may also be held during the final week.

In addition to the evaluation weeks, additional evaluation periods will be organised outside the teaching periods.

The teaching periods and evaluation periods

Academic year 2023-2024

Autumn term 2023

Teaching and evaluation periods	Time	Week numbers
First evaluation period; orientation	28 Aug – 3 Sep 2023	35
Period I and evaluation week	4 Sep – 22 Oct 2023	36–42
Period II and evaluation week	23 Oct – 10 Dec 2023	43–49
Second evaluation period	11 –17 Dec 2023	50

Spring term 2024

Teaching and evaluation periods	Time	Week numbers
Period III and evaluation week	8 Jan – 25 Feb 2024	2–8
Period IV and evaluation week	26 Feb – 21 Apr 2024	9–16
Period V: multimodal period*	22 Apr – 9 Jun 2024	17–23

*Multimodal period is a period in which diverse forms of teaching are implemented, for example:

- Six weeks of teaching, including an evaluation of learning
- Intensive studies of varying lengths
- A project course, beginning as contact teaching and continuing as a summer project
- Summer school

Timetable

As a first-year student, or fuksi in Finnish, you will be provided with a model timetable (or recommended study schedule) covering the courses that you are recommended to take in the first academic year. You can find the timetable on the Student Guide of your programme before the start of the academic year: <https://www.aalto.fi/en/programmes/aalto-bachelors-programme-in-science-and-technology/recommended-timetable> If you follow the model timetable, you will earn the recommended number of credits (60 credits) in your first year. The first-year curriculum includes e.g. basic courses in programming, mathematics, an Introduction Course for Bachelor's students and language courses. You should be prepared to work hard and invest time in your studies, because studying at the university level is different from studying at upper secondary school and requires more independent work.

..... **Course registration policy**

You need to register for each course you want to take. This is done online using the Sisu system. During the orientation week you will be guided in creating your first study plan (HOPS) in Sisu and how to register for the courses you will have in the first teaching period. You will need to have a course selected on your study plan in Sisu to be able to register for it.

Each course is worth a specific number of credits, which will be entered into your student register when you have passed the course. By definition, 1 credit is equivalent to 26.7 hours of student work.

..... **Completing courses**

Course teaching methods vary and may include lectures, assignments and group exercises or projects. The first lecture will cover all the practical matters needed to pass the course (registration, examination, assignment, study material, course completion), so you have good reason to be there! Though lecture attendance is usually not compulsory, it is definitely beneficial from a learning standpoint. Many courses have assignments, and in some cases they are compulsory. In other courses, you can do assigned work for extra credit to supplement the total points received on interim tests and the final examination. Whatever the case, maths exercises are always important, because they give you the opportunity to apply what you have learned in practice. In-class exercises in mathematics, called laskarit, include reviews of the subjects covered in the lectures. The exercises are often given out online in advance.

..... **Aalto.fi**

Aalto.fi, Aalto University website, is the main source of information on studies, university services and other matters related to your future alma mater. Through this site you can also follow Aalto news and current events information to students. You can access Aalto.fi here: <https://www.aalto.fi/en>

For each study programme, Aalto.fi site has its own Student Guide, including information about the curriculum, recommended schedules, planning studies, contact information for the programme staff and other useful information. You can find the Student Guide for Aalto Bachelor's Programme in Science and Technology here: <https://www.aalto.fi/en/programmes/aalto-bachelors-programme-in-science-and-technology>

..... **Support and advice for students**

Studying at university requires more independent work than in high school or upper secondary school. As an adult, you are expected to learn how to find the information you need on your own. Fortunately, there are many sources of help available.

An academic advisor is assigned to every first-year student for the duration of their bachelor's studies, that is, the first three years. Advisors arrange both group and individual meetings with their students. Academic advisors belong to the university's research and teaching faculty, usually as professors, associate professors or university lecturers. Academic advising is a form of guidance aimed at developing the student's own initiative and goal-setting, and at giving students the chance to get to know at least one academic staff member a bit better. During first-year studies, academic advising is a part of the Introduction Course for Bachelor's Students.

You can always turn to student services if you are unsure about where to start or whom to ask about something. The coordinator and planning officer of the programme, as well as other student services staff will be happy to help. Student services can assist you with matters involving:

- questions related to studies
- approval of your personal study plan (HOPS)
- graduating with a Bachelor or Master of Science (Technology) degree
- getting transcripts of records or certificates of student status
- registration for the academic year
- tuition-fee payments
- student exchange
- transfer of credits

In fact, student services can assist you with almost anything related to your studies, and if not, they can probably direct you to someone who can.

Student services for all majors of the Aalto Bachelor's Programme in Science and Technology are located in the Computer Science building, floor 1, corridor B. They can also be reached at

bsc.tech@aalto.fi

Student Service Point at the School of Science can help you with general matters, for instance receiving documents such as certificate of student status and official study transcript or getting help with enrolment. Starting Point can also help you with common issues. You can find the locations, contact details and opening hours for the Student Service Point of School of Science and for Starting Point here: <https://www.aalto.fi/en/support-for-studying/contact-information-for-learning-services>

More information about your degree, curriculums, timetables and so much more can be found at:

<https://www.aalto.fi/en/programmes/aalto-bachelors-programme-in-science-and-technology>

USEFUL WEBSITES

A new university brings with it a multitude of new websites and apps, which will become very familiar during the coming years. Some are significant for your studies, others generally useful and helpful to your budding student life!

Regarding studies

mycourses.aalto.fi

MyCourses, or MyCo, works as a general study platform for most of your courses. Here, you can find the course timetables, notifications, course material, deadlines, homework and much more.

sisu.aalto.fi

Sisu is used to plan and construct your personal study plan (HOPS), sign up for courses and examinations, as well as check your grades and achievements. This will be practiced together first!

aalto.fi

aalto.fi is the Aalto student portal for information on studies, university services and other matters. It contains major and minor contents, model schedules and important contact info.

Lifestyle

domo.ayy.fi | hoas.fi

Applying for Student housing is good to make a priority, either through AYY, HOAS or both. Waitlists can be very long depending on the type and location of housing.

ayy.fi

AYY's webpages provide information useful for student-life. This includes information on services, different associations and clubs as well as other student activity.

kela.fi

Kela is used to apply for student and housing aid, as well as any other aid you may be entitled to. You also use this to pay for your annual Finnish Student Health Services (FSHS) fee.

Useful applications

Frank works as an electric student card that also shows daily deals and student discounts!

The HSL app contains public transport routes and allows you to purchase tickets easily with student prices.

Mobilepay can be connected to Frank, allowing you to automatically apply student discounts when paying.

Aalto Space allows you to reserve university study spaces to use for self study or group work.

Kanttiinit contains the weekly menus and locations of all nearby student restaurants.

Kide.app works as a platform for ticket sales for multidisciplinary student events. You'll need fast fingers and luck.

Programme Director's Greetings

Congratulations on your admission and welcome to Aalto University!

We are excited to have you in our Bachelor's Programme in Science and Technology, designed to respond to the growing digital transformation of our society and groundbreaking advances in engineering, automation, chemical engineering, quantum technology, information sciences, computation, and artificial intelligence.

Our program is fully taught in English, acknowledging the truly international environment of Aalto, bringing our international faculty closer to students, and opening Aalto's doors to talented and motivated students from all over the world.

We are a leading research institute, hosting several top-notch research groups and world-class research infrastructure. Our excellence in research provides also a stimulating education environment, where top faculty teaches what they are passionate about, inspiring students and opening new horizons.

“Starting a university degree poses new challenges.”

Here, you need to be more independent, responsible, and self-driven. Your new path can also be a highly satisfying experience: in addition to deepening your knowledge in basic studies, you will obtain the opportunity to think about real-world problems that impact our society, and come up with your own ideas, solutions, or projects. We encourage you to stay focused in your studies and to build a solid foundation of mathematics, science, and technology, which can support you in your future academic endeavors for the rest of your professional career. On the other hand, keep in mind that technology is progressing at an extremely rapid pace and

many of the technical skills that you will acquire today may not be relevant in five or ten years from now.

To prepare for the unknown future challenges we guide you to approach your studies with a problem-solving attitude. Foster your curiosity, intellectually challenge your teachers and your peers, and seek for creativeness. Do not hesitate to pursue your own ideas, start projects with your classmates, and go out of your comfort zone.

“The time at Aalto is the time you become a game changer at heart.”

Most importantly, have fun! Great things happen when you enjoy what you do and feel good about your choices. As the happiest country in the world, Finland holds great potential in offering you also this momentum.

Yours,

Mikko Möttönen
Director of the Degree Programme

Welcome to *Aalto University!*

Your first year will surely be full of new experiences, but just what kind? Use our extremely accurate but not necessarily trustworthy prediction system to find out:

A A L T O

Guided by JuhLis

Otaniemi and Aalto might be familiar very with you or not, there are plenty of people from various backgrounds. This area, also called as Otanella can at first feel like a big maze. During the Orientation Week and the first fall, the campus and the rest of the Otaniemi will get more familiar to you. Let's take a small sneak peak of everything here!

Aalto University is a singularity of innovation, breaking the borders of study disciplines at the pinnacle of development. It's also known as an ok-ish university. Founded in 2010, it is the love child born from the merger of the Helsinki University of Technology, School of Art and Design and Helsinki School of Economics to form one, unique, multidisciplinary university. Named after the legendary Finnish architect, Alvar Aalto, who is responsible for the designs of some of the campus' iconic buildings, Aalto University takes in around 3000 Bachelor- and Master's students from around Finland and the world every year. You're sure to run into a multitude of different people from all sorts of backgrounds in Aalto!

The campus is located in the idyllic Otaniemi in Espoo, easily accessible using the metro, buses running around the clock, and perhaps some day even with the brand new Jokeri Light Rail (estimated to start operating in fall 2023)! The ever-in-construction campus has everything a student could need: red brick as far as the eye can see. In addition to the iconic main buildings, these include shopping centers tailored for student needs, study spaces open around the clock, libraries, 13 different student restaurants, indoor and outdoor sports facilities, and of course well-renowned student housing, that you might also end up in some day!

The community of Aalto University is like no other. Teekkari culture blooms and evolves here constantly. That is the best thing here. We do our best for you to find your own place from here!

HELLO FUKSI AND WELCOME TO AALTO COMMUNITY!

KY - AALTO UNIVERSITY BUSINESS STUDENTS

KY is a community of more than 3000 business students, "kylteris". Our purpose in the Aalto community is to cherish our 110-year-old traditions, uphold KY culture and advocate for our members. At the campus you can spot us in our dollar green overalls.

KY is home for hundreds of volunteers, who participate actively in KY's clubs, subject clubs, subcommittees and committees. They organize a wide selection of activities to make sure that everyone gets the most out of their time in the university. We have many traditional events that are also open for anyone in the Aalto community, such as the adventure competition Aalto City Challenge, Hukkaputki pub crawl and KY Wappu.

PROBBA RY

Probba is the Student Association of Aalto University School of Business, Mikkeli Campus. All students who study at Mikkeli campus are members of Probba, bringing their size to around 240 members.

Website: probba.org
Instagram: [probbary](https://www.instagram.com/probbary)

TOKYO

TOKYO RY IS THE ASOCIATION THAT BRINGS TOGETHER STUDENTS OF THE SCHOOL OF ARTS, DESIGN, AND ARCHITECTURE.

TOKYO is the umbrella association open to all ARTS and art-inclined students.

As a school-level association, TOKYO takes an active part in student advocacy and organizes events to gather together all the ARTS-minded students and alumni.

Our events include Lapland trip, Maskerad, and Christmas Sales, where ARTS students sell their art. TOKYO also owns Kipsari and Kipsari Studio - two great non-profit vegan restaurants- as well as Torso magazine, which is printed at least 4 times a year and showcases ARTS students works + discusses current events and topics.

Aalto University
Student Union

Services

Student housing

AYY owns approximately 2,700 affordable student apartments in Helsinki and Espoo and offers a home for over 3,400 residents. All degree and exchange students who are members of AYY have the right to apply for AYY's housing. You can apply for housing as soon as your admission is confirmed by the university.

First-year students and students moving from outside the Helsinki metropolitan area are given priority in the allocation of housing. First-year students receive an additional score when they apply for AYY's shared apartment queues. To receive the score, students must apply for housing no later than in July or December, depending on when their studies begin.

You can browse and search for AYY's housing through the Domo system: domo.ayy.fi. As a student, you can also apply for housing from the Foundation for Student Housing in the Helsinki Region (HOAS).

Advocacy and interest representation

AYY represents students' interests and rights on university level and national level, making sure students are being heard in the society! You can take advantage of AYY's advocacy services, for example, if your

exam results are late or you may get in touch with an equity officer if you encounter any type of harassment. As a member of AYY, you can apply for administration as a student representative and influence the decisions made at the university.

AYY's highest decision-making body is the Representative Council (Rep-Co), which is elected by vote. In the elections, all AYY members can vote and run as candidates. The next Representative Council elections will be held this autumn. Members of the Representative Council decide on the goals and policies of the Student Union.

Student culture

Volunteering, association activities and diverse events are an essential part of Aalto student culture and the Aalto community. The highlights of the year include Wappu and Orientation week events, annual ball, Shrovetide celebrations and many other events.

In addition to the Student Union, events are organised by volunteers who work in sections and committees. AYY has five sections: Aava Community Section, Campus Section, Teekkari (Technical Student) Section, Museum Section and Advocacy Management Group (more commonly known as EduJory). The call for volunteers will open in late autumn. Information on the call will be published in AYY's communication channels.

In addition, AYY has more than 200 associations that organise activities in the fields of sports, music, games,

and other hobbies. New students are always welcome to join association activities, and AYY offers help, support, and advice for the establishment of associations and their activities. Keep an open mind for different opportunities and get to know the associations in upcoming events!

The Museum of Student Life has expanded its exhibition and activities to cover the student cultures of the entire Aalto community - technology, business and arts. In addition to engineering students' culture, the museum now also presents the history and present of KY - Aalto University Business Students and TOKYO, Students of Art, Design and Architecture. In addition, AYY's art collection will also be presented in the exhibition collections. The museum is located at Jämeräntäival 3A.

Rental facilities

In addition to housing, AYY has numerous saunas, event venues and recreational facilities that members can rent. Some facilities are free of charge. AYY also rents a van.

Scholarships and project grants

You can apply for a project grant from AYY or the TTE-Fund for a project organised by a group of friends or an association. You can also apply for scholarships awarded by AYY.

Student benefits

You will receive a digital or plastic student card to prove your student status (card delivered by Frank). By showing your student status, you are entitled to hundreds of benefits from 1 Aug onwards, including Kela, Matkahuolto and VR, as well as to student lunch discount in student restaurants. You are also entitled to student discount in public transport in the metropolitan area if you live in the HSL area and have updated your student status in your travel card at the HSL service point. You can find the list of all benefits and discounts available with the student card on Frank's website at frank.fi.

The digital student card Frank App is an official student ID, which you can download and activate starting on 1 Aug once you have enrolled for attendance at the university and paid AYY's membership fee. You can check the prices of other card options on Frank's website. You can also add an ISIC license to both digital and plastic student cards. More information on different student cards can be found on Frank's website at frank.fi.

Once you have received the plastic student card, please remember to pick up the academic year tag for your card from AYY's service point! At the same time, you can also pick up a free Design Notebook and a badge.

Harassment Contact Persons

Everyone is welcome in Aalto University and Otaniemi exactly as they are, and we have a zero-tolerance-policy for harassment of all types in our association, activity and events. We aim to make sure that you can experience a safe and care-free fuksi year without ever encountering disorderly or harassing behavior.

However, if you are faced with this kind of behavior, you can contact the AYY's Harassment Contact Persons, who will advise you and support you in resolving the situation. The Harassment Contact Persons can be contacted if you've experienced or witnessed any kind of harassment, need help dealing with the aftermath or if you just need someone to talk to about the inappropriate behavior you've experienced.

They can also be contacted even if you're not sure if the situation was harassment. All contacts with the harassment contact persons are confidential, and won't lead to further action unless the person who made the contact so wishes. PT will have own harassment contact persons in the near future!

You can reach the harassment contact persons from

TEKKARIUS

So what is this thing called Teekkarius?

Teekkarius is working together. It's guild, association and student activity, and it's respecting old traditions and developing new ones. These next pages introduce the most notable, sometimes over 100-year-old teekkari traditions and ways you can identify students of engineering during your coming years. There's no one correct way to be a teekkari: you'll surely find your place, just look around or make your own!

The Teekkari Cap

The Teekkari Cap has been the most notable sign of being an engineering student for almost 130 years. The Otaniemi cap has six corners, with a black tassel connected to the center that hangs over the right shoulder. The cockade is the insignia of the old student union of the old University of Technology, and the colour of the lining is the "Red of Engineering". Only teekkaris are allowed to use the caps, and they, too, only during the summer (from 1.5. to 30.9.), unless they've been granted a special permit. As a fuksi, you get to place the cap on your head for the first time at midnight during Wappu, or MayDay (if the Fuksi Major so decides). This is a ceremonial moment, because you have to earn your Teekkari Cap by collecting enough fuksi points into your **Fuksi Point card!**

Sitsit

At Sitsit, or academic table parties, you get to eat and drink your fill, but the evening is really centered around singing. A teekkari is known to sing loud rather than well, so nobody needs to be shy about their voice! There's always more space next to the note. The songs are usually traditional teekkari-songs, or just academic party or drinking songs. You also don't need to know the words by heart, since there's always a song leaflet at your seat. Guilds and associations also often have their own song books. PT's song book **Sidos** was published in 2022. You can get one too with you to sitsit!

The dress code at sitsit is usually business-attire or cocktail. At themed sitsit, people can also party whatever's appropriate, sometimes in togas or overalls!

Annual balls

Guilds and associations celebrate their anniversaries with style. The celebration often starts with a cocktail-event, where invited guests can present gifts, which are traditionally as creative and as inconvenient as possible, to the board. This is followed by the main celebration, which is an academic table party of the fanciest end, as the dress code is White-Tie and Tails. The party is followed by the afterparty and possible after-afterparty, which continues all the way to the Herring Breakfast, or Sillis, the following morning. **PT's annual ball** is known as **Lämmönsilto**, and it's celebrated already in September. We're turning 11 years-old this year, and we plan on celebrating accordingly!

You can collect Fuksi Points into your **Fuksi Point Card** during the fuksi year by participating and getting to know teekkari-culture. You'll get your own point card on the first day of Orientation Week.

Tempaus

A Tempaus is the way for engineering students to affect and take a stance on bigger, more serious societal current affairs with a glint in their eye. The Tempaus-order is given by the Jämerä Bearded Engineer, and the given order calls on every student to do their bit to further the given cause. A large amount of teekkaris often participate in a Tempaus, attracting a lot of attention and relaying the desired message.

Students of Business and Arts have also participated in Tempaukset on their own even before Aalto University. Nowadays Tempaus is a joint affair between all Aalto students, not limited to just students of engineering. The most recent Tempaus was in 2016 to raise awareness of the importance of good basic education by visiting over 1500 elementary schools. Join Tempaus if it happens to take place while you study!

Jäynä

Jäynääminen (Teekkari Mischief) is a substantial part of teekkari-culture. Jäynäs are often seen as small, tricks and installations that cheer up the mischief-maker and audience alike. The aim of a Jäynä is, after all, to give both parties a good laugh! The practical joke is often related to current events, and can even take a stance on them. In no case is a Jäynä supposed to be malicious, but instead a clever joke that people can look back on and laugh.

Any good Jäynä-ideas can be documented and sent to the official Jäynä-competition! This can be done at any time of the year, and the best ones might make it to the Jäynä Finale held around the possible Wappu! We encourage you to get creative with your new fellow students and give yourselves and others the laugh of their life!

Wappu Magazines

Wappu Magazines are the very own, playful and lighthearted Wappu publications of Otaniemi. On even years, the magazine is Julkku, and Äpy on odd years. This means, that you will be an JulkkuFuksi for Wappu 2024! The magazine is published about a week before Wappu, after which eager, overall-clad sellers take over the best sales spots around town. You, too, can become a seller and earn a good amount of pocket money by selling Julkku next spring!

Speksi

Speksi is an interactive musical theater production bursting with music and dance. What makes a speksi special is, that the audience can affect what happens onstage. If anyone in the audience yells "Omstart", the actors, dancers, band and/or stage tech has to improvise the scene again according to the audience's orders. This makes every performance different from the other! In Otaniemi, there are multiple instances that organise speksis: Teekkarispeksi, Fysikkospeksi, and KYSpeksi.

The Museum of Student Life

The Museum of Student Life, founded in 1958 and formerly known as the Polytechnical Students' Museum, is the only museum in Finland presenting the history and present of the student cultures in Otaniemi. It does so through vibrant displays of artifacts and documents. The museum is located in the Teekkari Village, and you're sure to visit it at least once during your fuksi year!

Overalls of Otaniemi - A Very Short History

You may have come across student overalls before. Where are they from, and what do their different colours mean?

Overall-culture arrived from Sweden to Finland in the beginning of the 1980's, and by engineering students the custom has spread out slowly, and nowadays almost all subject associations of both universities and vocational schools have their own overalls! Overalls are still strongly associated with engineering students, and they're carried with great honour. While wearing your overalls, you're representing your association or guild, and it is proper to wear them and behave in them with due respect.

Each guild has their own coloured overall (yes, even the shades of white differ from each other), and there is often a long history or fun story behind their colours! However, each student has the right to make their overalls their own, and they're often decorated and modified with whatever people come up with. The most common modifications are overall patches, but people also drape cordons, sew on new pockets, attach knickknacks like soft toys or wine glasses... you get the gist.

You can also swap pieces of your overalls with others! For example, couples often swap a leg, and friends sometimes swap sleeves. You may also come across a CHEM guild's sleeve attached to PT's overalls! There's really only one gentleman's rule restricting decorating your overalls: you can't cover sponsorships or the association logo!

The sleeves and legs of PT's overalls are adorned by red, blue and yellow stripes. These are a memento of the three CHEM guilds: the Chemistry Guild, The Guild of Materials and Metallurgy and The Forest Products Guild!

CHEM Guilds

Prosessiteekkarit ry was founded in 2012, after an educational program reform merged the first year studies of three different programmes. Inspired by this, the duties of fuksi upbringing were moved to a new association, which began to develop its own traditions. However, the CHEM guilds of the original programmes are still thriving! They arrange events and activities for their members, represent them and ensure they have a fun and functioning student community, just as our association does. You're sure to run into the old guilds during your fuksi year, but let's get to know them a bit now too!

Chemistry Guild

Chemistry Guild, Kemistikilta or **KK** in Finnish, established in 1891, is the oldest and most beautiful teekkari guild in Otaniemi and Finland. Chemistry Guild primarily consists of chemistry, chemical engineering, and biotechnology students, but everyone is more than welcome to participate in our events! KK organizes a lot of events, ranging from sports to sittings parties and from company visits to museum tours. In addition, we host the biggest electronic music party in Otaniemi every fall, Neon Rave. Chemists are easily recognizable by their red sleeve in , with the guild's neon atom emblem, in their overalls. You can earn the sleeve by participating in the guild's events!

Guild members can be found at guild room, which is located in the CHEM building behind the janitor' booth. Some of the most popular pastimes there are drinking coffee, playing Tetris, reading the guild magazine Tisle, and having casual conversations. Moreover, the traditional chemistry games of Corona and Marjapussi are actively played, and tournaments are held throughout the year for both games.

Fun fact: The shortest route to grab coffee during lecture breaks from the KE1 lecture hall is to KK's guild room :D

Welcome to Otaniemi, enjoy your fuksi year, and see you at the guild room!

Juho Kotiranta
Chairman of the Board '23
@juhokotiranta
kemistikilta.fi

The Forest Products Guild

Puunjalostajakilta, PJK, The Forest Products Guild was founded in 1945. Guild brings together students interested in wood processing, bioproducts and the forest based industry. The field includes a lot from traditional pulp and paper technology to new bio-based solutions, for example in replacing plastic. our two master's majors Biomass Refining and Fiber and Polymer Engineering consist of these topics.

PJK [pu: yee: kho:] hosts various activities, from casual hang out evenings and sport events, to company visits (excursions). Our guild has strong relations to the forest products industry, and different events held with them are a really good way of getting to know all the interesting possibilities the forest industry has to offer. That is why you should take part in the guild's fuksi excursion in October!

Puu people are best found in our guild room at the Department of Bioproducts and Biosystems, the Puu1 building! You can visit the guild room any time, drink some coffee and play our traditional game Siantappo! You can recognize us by the yellow sleeve in the overalls and the guild's board by the full yellow overalls. You can contact me if you want to ask anything about the industry or the guild!

Congratulations on your acceptance and a good choice! Welcome to Otaniemi, this is where the best adventure of your life begins <3

Nelli Kaskirinne
Chair of the Board '23
@puutyty
puunjalostajakilta.fi

The Guild of Materials and Metallurgy

The Guild of Materials and Metallurgy students (in Finnish Vuorimieskilta, VK) is a subject organization for students of Materials Science and Metallurgy, founded in 1947, the aim of which is to unite students in the field, organize events and be the guardian of the interests of its members at the university.

The guild organizes a variety of recreational events, helps develop the degree program, and builds a close community among students. Events in autumn include crayfish party, trial drilling and annual ball. During vappu we organize the legendary beer-relay and vappulunch. We also organize excursions to companies working in our field including foundries and mines where you get to see possible future employers.

Although Vuorimieskilta is among the smallest in Otaniemi, we are known for being visible, loud, and unique in Aalto community. For many members this small community has brought lots of memorable moments, close friends, and lots of contacts with employers.

The Guild Room is located behind the sliding door in connection with PT's Process room. Come to say hi at the guild room and events. You can spot current and past board members

If you have any questions about the guild, studies or the field you can send me a message. Our members and the board warmly welcomes you to our community!

Welcome to Aalto, see you at Orientation week!

Lassi Pekkanen
Chairman of the Board '23
@L4551
vuorimieskilta.fi

Other Guilds of Otaniemi

In addition to the CHEM guilds, PT co-operates actively with the rest of the guilds of Otaniemi, and there sure is a load of them! There will be multiple chances to get to know your fellow fuksis over guild and association borders. Lets see how many different overalls you can recognise after Orientation Week!

Teknologföreningen, TF, is the Swedish-speaking and the only student nation at Aalto. Everyone is welcome to TF regardless of study programme or language. The only requirement is to be interested in learning or speaking Swedish. Teknologföreningen's spaces and its own student restaurant are located in Urds-gjallar, the big concrete building next to Dipoli. TF-members are recognized from their dark red, also known as technology red, overalls.

The Guild of Surveying Engineers (MK), is the association for students in the degree program of Real Estate Economics and Geoinformatics, Sustainable Communities and Built Environment. MK, established in 1901, is the oldest guild that still receives new students every year. You can spot the members of the guild by their matte black overalls with a fuchsia colored sleeve. The MK guildroom, Monttu (it means a gob or a pit), is located at the K1 building.

The Guild of Architecture, AK, was founded in 1908 and is Otaniemi's second oldest guild still receiving fuksis. It is home to students of Architecture, Landscape Architecture and Interior Architecture, so the members are a mix of students with technical and artistic backgrounds. The Guild of Architecture's overalls are off-white ("painter white") and made of very easily soiled cotton. The Landscape Architects can be identified by the tree on the back of the left leg. Interior Architects design their own fabric to decorate their overalls with. The logo on the back of the overalls is different each year, as it is designed by the fuksis themselves.

The Guild of Civil Engineers, more commonly known as "Raksa", is a subject association that was founded in 1913 and accepts undergraduates studying civil engineering and computational engineering. The association, which was originally named "Engineers' Club" aka IK, is Otaniemi's third oldest guild that still accepts fuksis. Before the upcoming fall, the guild members majored in Energy and Environmental engineering. Raksa members are easily identified by their builders blue overalls with a green sleeve and pocket and their legendary chant of "RAKSA JAKSAA" ("Raksa perseveres!")

The Guild of Mechanical Engineers was founded in 1915, and even with 108 years of history, it is the youngest guild in the School of Engineering. However, it is one of the biggest guild's with over thousand members. Members of **KIK** can be recognized by their cheerful pink overalls, their pink caterpillar tractor mascot and their jubilant chants of "Yy, kaa, KO, NE!" ("one, two, THREE, FOUR/MACHINE").

The Guild of Electrical Engineers (SIK) was founded in 1921. The energetic electrical engineers can be identified by their pure white overalls with the new cog logo on the back of the overalls. You can also spot the old lightbulb logo from older students' overalls. SIK's overalls are also decorated by a depiction of a telegram on their right thigh pockets. These overalls can be seen on SIK fuksis from day one, as they are the first guild to receive their overalls in Otaniemi. SIK's chant is "Jappadaida, jappadaida, hei, hyvä SIK!"

The Guild of Physics (aka Fysikkokilta, FK) is a guild founded in 1947. It gathers all Engineering Physics and Mathematics students as well as Quantum Technology students in Aalto under one roof. Each Engineering Physics and Mathematics student specializes in either physics, or mathematics and systems sciences. The guild's overalls are natural white. In order to get the right shade, fuksis dye their overalls with tea. The left sleeve is beige for Quantum Technology students.

The Guild of Industrial Engineers (Prodeko) was founded in 1966, although it says 1866 in their overalls due to a legendary mistake. Although the guild only has a small intake, their members are all the more active! Industrial Engineers can be recognised by their white overalls, which are decorated with rainbows. New fuksis design the overalls from the ground up and put them on for the first time in November at the Sikajuhlat, to which you are also warmly welcome!

Tietokilta, or **Computer Science Guild**, is a student guild founded in 1986. Computer Science Guild is one of the largest in Otaniemi. Many of the younger guilds in Otaniemi today have started as a part of this guild, such as AS, Athene and Data Guild. Members of the guild can be found wearing shiny black overalls with the guild's unofficial white @-logo in the back. The chant of the guild can be heard from far away as a two-part call-and-response: "tieto- KILTA!"

The Guild of Automation and Systems Technology AS was founded in 1998. It brings together students majoring in Automation and Robotics, Information Technology as well as Digital Systems and Design. The industrious members can be recognised by violet overalls. The left sleeve is black with a white pocket that reminds of shared history with TiK and SIK and the arduino-blue pocket on the right leg represents Digital Systems and Design students.

Athene, Guild of Information Networks, was founded by its students in 1999, and from the year 2022 includes also the students of Technological Psychology. Athene's overalls are a forest green or "Athene green". The overalls' left sleeve, collars and back pockets are black as a tribute to when Athene separated from the Computer Science Guild in 2003. The eye of Athene is the official logo which can be spotted from the overalls.

The Guild of Bioinformation Technology (Inkubio) was founded in 2007 and is thus Otaniemi's second youngest and the best guild. As the result of a historic spelling mistake, Inkubio's overalls are a reddish brown, and they are decorated with white "cow" patches, which guild members sew on themselves, to commemorate the time when they were part of the Guild of Electrical Engineers. On their backs, they proudly carry their logo, Maikki, a circuit board in the shape of a cow.

Data Guild is the guild for students of the degree programme in Data Science. Founded in 2019, it is the youngest guild in Otaniemi. The members of Data Guild have two different overalls. The older ones are shiny black with a silver sleeve and the current ones are shiny silver with a black sleeve to commemorate the time of Data Science students as part of the Computer Science Guild.

Otaniemi-Finnish-English -Dictionary

Decades of separation have generated a small language bubble in Otaniemi, which can be intimidating at the start as the words rarely make sense, even in Finnish! These words and phrases are ones you'll surely hear used during your fuksi year. Don't ever be afraid to ask what they mean if someone uses words you don't know!

Aava AYY's community section, hosts parties, trips and other fun activities

A Bloc also Bloc, a shopping center and popular cafeteria located in conjunction with the Otaniemi metro station.

A Blanc shopping center in Otaniemi.

Alumni a graduate.

Alvari 1. a cafeteria at the Undergraduate Center
2. a clearing between the Undergraduate Center and AYY's Central Office.

Amfi also Amfitheater. An amfitheater-like outdoor building at the Undergraduate Center.

Assari Assistant, a course assistant who can help you in exercises and labs.

AYY Short for "Aalto-yliopiston Ylioppilaskunta", the student union for Aalto students.

BP / Beppo Beerpong, the correct pronunciation of the name divides opinions. Forget everything you think you know about the rules of this game.

CanCan The greatest dance troupe of all time consisting of PT fuksis.

CHEM The School of Chemical Engineering.

DI Finnish abbreviation of Master of Science in Technology.

Dipoli One of the main buildings of Aalto with a cafeteria, big parties and a big pinecone at the entrance.

DOMO AYY's housing application service, domo. ayy.fi

Excu Excursion for short, a visit to a certain company.

Fuksi You! A first year student.

Päle Fuksi Captain, responsible for the fuksi up-bringing of PT. A helping hand, arm and leg to the new students.

Gorsu A sauna in the downstairs of JMT 5A.

HOPS Personal study plan.

Häry Harassment contact persons

IE Host and Hostess, The precious people in charge of arranging parties..

ISO Tutor who you'll get to know within your first days. Their duty is to help, guide and support you fuksis throughout the year.

Julkku A Wappu magazine, published on even years.

JMT Jämeräntaival, the main road alongside the student resident area.

Jäynä Term for harmless and fun teekkari pranks.

Kandilafka Undergraduate Center, Main building in Otaniemi, has lectures and exams held there.

Kavitaatio A student party held by PT fuksis, the theme changes annually.

Keto Central Office, AYY's Central Office, located on Otakaari 11.

Kilta Guild, Technology students' student association.

Kiltis Guild room, where the members of the guild can hang out and chill, play games and drink coffee.

Kipsari A vegan cafeteria located in Väre. Also a soup kitchen located at Otakaari 7.

KK Chemistry Guild.

Kondensatio also Kondis, KK's annual ball.

Kuumahionta also Kuumis, PJK's annual ball.

Kylteri A student of Aalto School of Business.

Lafka Colloquial term for buildings where studying happens, i.e. "päälafka" = main building.

Laskari A study exercise session, held on various courses where the main objective is to solve related math problems

Lukkari Songleader, leads the song at table parties.

Lämmönsiirto also Lämpäri, PT's annual ball.

Läsy A booklet containing sitsi songs

Manta/Havis Amanda A statue in Helsinki that's given a student cap at Wappu.

MT Miestentie, the newest residential area of Otaniemi a bit further away from Teekkari Village.

Mouho An academically older person who sometimes likes to complain about how much better things used to be.

Mursu "Walrus", Colloquial term for first year business students.

MyCo a platform where you can find information about courses you've signed up for.

N Meant to signify that a certain student has studied for many years. "Nth year student".

Nakki "Wiener", A small, usually fairly easy task that's given to people working at events etc.

Niemi Short for Otaniemi.

Noppa op Study credit (ECTS) that corresponds to the amount of work the course will have.

OK20 A sauna and sitsi space at Otakaari 20.

Otaantuminen A term for when a student ignores the world outside of Otaniemi for too long. It's good to get out sometimes!

pHuone also called the Process Room, the living room for all of our members at Kemistintie 1D (a guild room essentially).

PJK Short for "Puunjalostajakilta", or Forest Products Guild. Pronounced "Puu-Jii-Koo"

ProTeesi The association magazine of PT

Pruju Lecture notes/test subject area in a concise packet that you can consume on a short time's notice.

PT Short for "Prosessiteekkarit, the Association of Process Engineering Students, us!"

Pälekannu Captains' Channel on Telegram. Used to share the most important information about your fuksi year! Remember to follow this channel!

Pälewiikkis Captains' weekly mail, The fuksi captains' weekly mail distributed to all fuksis on Sundays. If you should read something, this is it!

Rantsu Large sauna in Otaniemi, Vastaranta 1.

RWBK Short for Retuperän WBK, Retuperä's Voluntary Fire Department, a band that plays modern french horn music.

Selkkari Lab report. Lab reports are done

after labs to transform completely gibberish lab results into comprehensible text.

SK Servinkuja, a road in Teekkari village.

Sillis Herring breakfast, a breakfast event that's usually held after an annual ball.

Sitsit Sittning, an academic table party with good food, good company and lots of singing.

SMT Servin Maijan tie, the side road of the student resident area with mostly family apartments.

Smökki Colloquial term for Servin mökki, "Servi's cabin", the largest party venue in Otaniemi that holds lots of sitsit and other parties in the evening time.

Speksi Spex, a fun interactive musical theater production with an improvisational element.

Teekkarihymni Teekkari hymn, a teekkari song that's only sung at midnight.

TG Telegram, a very popular messaging app around Otaniemi.

Toimari Official, an association's volunteer worker.

Tupsu Tassel fuksi, a 2nd Year student who has acquired their teekkari cap.

Täffä also TF, Teknologföreningen, AYY's swedish speaking student nation. Also a cafeteria famous for its iconic weekly spaghetti. Make sure to try it!

Ullis Short for "Ullanlinnanmäki" in Kaivopuisto in Helsinki, the main stage for Laskiaisrieha party and Wappu morning.

Viikkis Weekly mail, the association's weekly newsletter delivered to you every monday.

VK Short for "Vuorimieskilta", The Guild of Materials and Metallurgy Students.

Vujut Short for "vuosijuhlat", Annual ball, Annual party on the association or guild's birthday, usually essentially sitsit but finer.

Wappu The biggest event for technology students. Held if the fuksi major so graces us.

YTHS Finnish for FSHS (Finnish Student Health Services). The Otaniemen service point can be found at Otakaari 12.

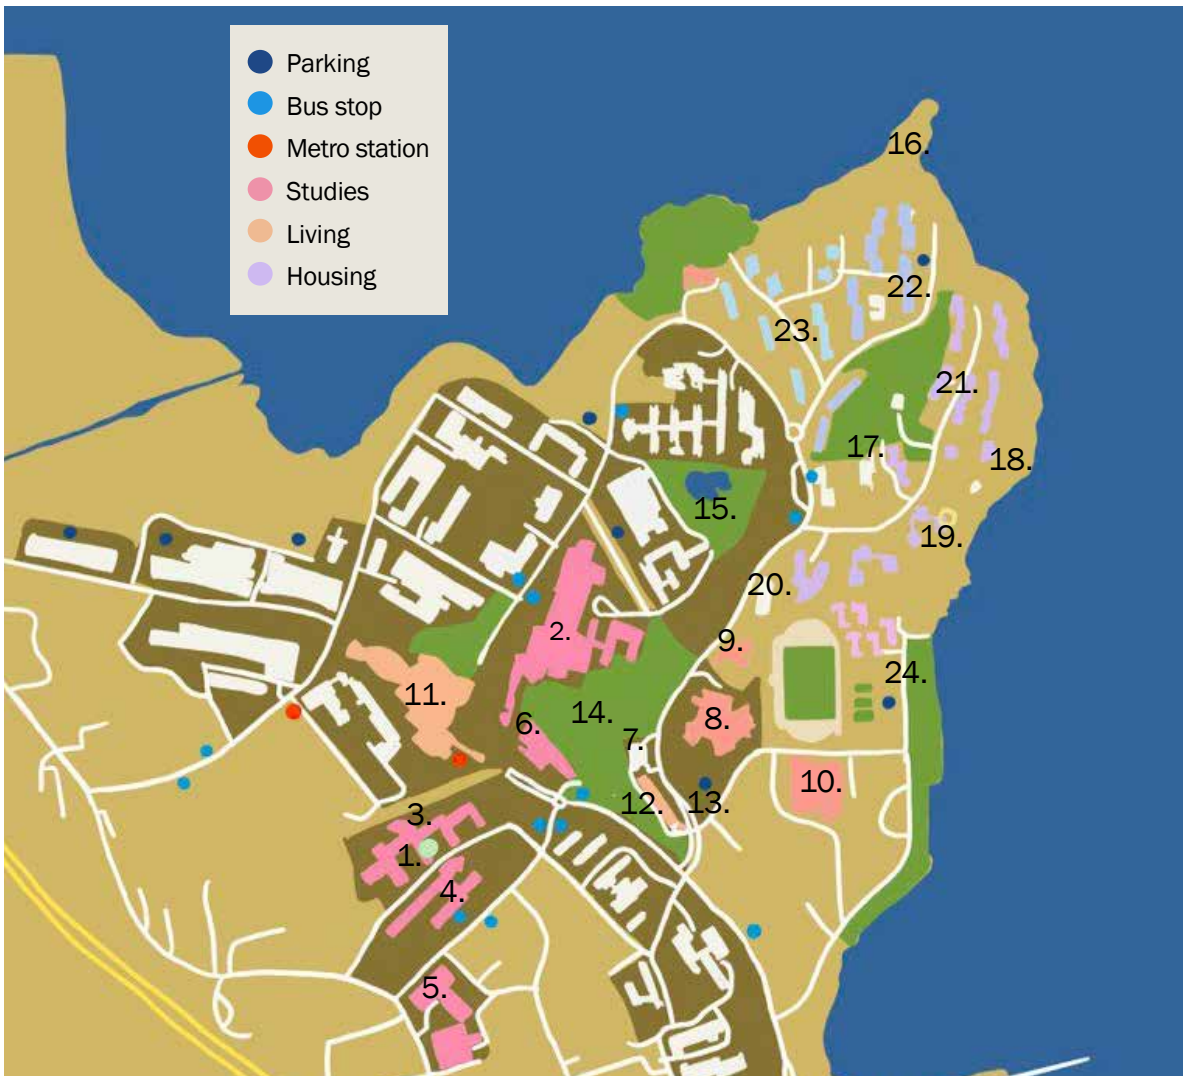

X-Burger The only food stand in Otaniemi, open late. Located next to A Blanc

Äpy A Wappu magazine, published on odd years.

Map of Otaniemi

KICK-START

20.8.2023 at 2 pm

Take a head start into the fuksi year and arrive at Alvari Square at 2pm!

You'll get to know your Fuksi Captains, (us!), your board, your ISOs and fellow fuksis already before Orientation Week in the midst of chill hanging out and playing games. You can also get your first fuksi point from attending! You can recognise a Prosessiteekkari from our bright blue overalls docked with stripe, and you can find us from under an aggressively green tent! As the night progresses, we'll move indoors where there will be food, sauna and a hot tub!

Sign up at <https://www.prosessiteekkarit.fi/ilmo/event/224> , so we can prepare food for you. You can also just stop by whenever suits you, so make sure to come by to say hi even if you can't stay for the whole evening! :)

See you there!!

WHAT? Kick-Off!

WHERE? We'll start at Alvari Square and continue to OK 20! (check the map)

WHEN? Starting Sunday 20th of August at 2pm

WHAT DOES IT COST? Not a cent!

WHAT TO PACK? Weather appropriate clothing suitable for outdoor activity + sauna gear if you want!

SEE YOU SOON!

Chem Eng
